JAKOB JOHNSON

Full Stack Developer | React & TypeScript | DevOps

@ hellojakejohn@gmail.com 🔗 linkedin.com/in/jakejohndoe 🔗 github.com/jakejohndoe 📍 Saint Paul, MN

SUMMARY

Full Stack Developer with hands-on experience building and deploying production-ready web applications using React, TypeScript, Node.js, and PostgreSQL. Strong focus on performance, clean architecture, and user-centered design, with experience shipping end-to-end products from concept to launch.

EXPERIENCE

Independent Full-Stack Web Developer
📅 2024 - Present 📍 Minneapolis, United States
🔗 www.hellojakejohn.com | www.steviejohnson.com
- Built and deployed custom portfolio websites.
- Developed responsive UIs with React, HTML, and CSS.
- Integrated dynamic features and APIs using JavaScript/TypeScript.
- Managed deployments, domains, and production builds.
- Translated creative requirements into functional web products.

ReWork
📅 2025 - Present 📍 Minneapolis, United States
🔗 www.rework.solutions
- Designed and launched a UX-focused web application with an emphasis on usability and accessibility.
- Built responsive frontend components using React and Tailwind CSS.
- Integrated OpenAI APIs to improve text analysis and matching accuracy.
- Deployed the application on Vercel with PostgreSQL for persistent user data.
- Owned product design, UX flows, and visual system from concept to launch.

Welp
📅 2025 - Present 📍 Minneapolis, United States
🔗 www.welp.network
- Directed and built an end-to-end Web3 application on Ethereum.
- Wrote and deployed Solidity smart contracts using OpenZeppelin patterns with access control and security considerations.
- Implemented wallet connectivity and on-chain buy/sell flows using Ethers/viem, wagmi, and RainbowKit.
- Integrated ERC standards and verified on-chain interactions with real-time frontend state updates.
- Led and operated product decisions across UX, smart contracts, and frontend architecture.

EDUCATION

Metana Fullstack Development Bootcamp
Metana 📅 2024 - 2025 📍 Minneapolis, United States

Metana Solidity Development Bootcamp
Metana 📅 2025 - 2026 📍 Minneapolis, United States

SKILLS

Frontend
Figma HTML CSS React
TailwindCSS UI/UX Design
JavaScript TypeScript
Responsive Design

Backend
Node.js MongoDB PostgreSQL
Firebase REST API's Git GitHub
Jest Express.js Next.js

DevOps
Docker Kubernetes CI/CD
Cloud Platforms AWS

Soft Skills
Leadership Teamwork Creativity
Balanced Approach Adaptability
Time Management Initiative
Communication Problem-Solving

CERTIFICATION

JavaScript Algorithms & Data Structures
Covered JavaScript fundamentals including variables, arrays, objects, loops, functions, algorithmic problem-solving, OOP, and functional programming.

Responsive Web Design
HTML & CSS fundamentals including responsive web design, modern layouts (Flexbox, Grid), accessibility (a11y), and cross-device compatibility, applied through hands-on projects.
